Best Doctors®

In-depth Medical Review

PUT YOUR CASE IN THE HANDS OF THE RIGHT MEDICAL EXPERT

Do you have the right diagnosis? The right treatment plan? The information you need to make the right decision?

Make a more informed medical decision. Have a renowned specialist review your medical case through Best Doctors' InterConsultation™ service. InterConsultation provides an in-depth analysis of your case – by an expert in your particular condition. It's like a second opinion, only better!

HOW IT WORKS ////////////////////////////////////

Get started by contacting Best Doctors by phone or online.

A dedicated Member Advocate Nurse has an in-depth discussion with you about your medical condition and obtains a full health history. With your written approval, Best Doctors collects all appropriate medical records, images and pathology samples on your behalf. Files are reviewed. Images are re-read. Pathology samples are re-tested.

The Best Doctors clinical team conducts a comprehensive analysis of your case and selects the most appropriate expert(s) to review your information.

The expert reviews your case and provides Best Doctors with a detailed report that includes his or her recommendations. Best Doctors shares the report with you, as well as with your treating physician, with your consent.

HOW BEST DOCTORS HELPS

Convenience – We handle the entire process for you. Best Doctors collects all your records, X-rays, scans, test results and pathology samples. You don't have to travel, visit doctors' offices or hunt down files.

Confidence – Knowing that a peer-nominated expert specialist is reviewing your case gives you peace of mind that you are making an informed medical decision.

Support – You are encouraged to reach out to us with your questions while we review your case and we'll contact you regularly to keep you informed as your case progresses.

Best Doctors helps you understand your medical condition and ensures you have the right diagnosis and best treatment options.
