

Questions & Answers about your new *Walgreens* three-month supply network

1. What is a Walgreens three-month supply network?

It's a feature of your prescription benefit, managed by Express Scripts®. With it, you have two ways to get up to a three-month supply of your long-term maintenance medication (those drugs you take regularly for ongoing conditions). You can conveniently fill those prescriptions either through home delivery from the Express Scripts PharmacySM or from any Walgreens or Duane ReadeTM pharmacy¹.

2. How many Walgreens pharmacies are available to me?

There are more than 8,000 Walgreens pharmacies. To locate one, visit express-scripts.com and click "Prescriptions" then "Find a pharmacy"; Smart90 Walgreens pharmacies will be noted in your search results. Or, call Express Scripts at 866.890.1419.

3. What happens if I keep filling my long-term medicine like I'm doing now?

Per your plan, if you keep filling a one-month supply instead of a three-month supply, or if you're using a non-Walgreens pharmacy to fill your maintenance medication – you'll pay either a higher cost or the full cost for your medicine.

4. What does "full cost" mean?

"Full cost" is the actual cost of your medicine. For example, the actual cost of the medicine might be \$75, but if you have a copayment or coinsurance, your payment might only be \$20. "Full cost" means that your payment would be the entire \$75.

5. What is the advantage of up to a three-month supply vs. a one-month supply?

By getting up to a three-month supply, you'll make fewer trips to the pharmacy, and you'll only need to make one payment every three months. Also, there's usually a savings for getting one three-month supply vs. three one-month supplies at retail. Depending on your plan, after either the second or third time you purchase a one-month supply of a long-term drug at a non-Walgreens network pharmacy, you could pay a higher cost or the entire cost². But you can avoid paying more by choosing a three-month option – either through home delivery from the Express Scripts PharmacySM or from a Walgreens pharmacy. You will pay the same copayment for your three-month supply whether you fill through home delivery from the Express Scripts PharmacySM or from a Walgreens pharmacy.

6. How do I get a three-month supply of my medicine?

You can have the Express Scripts PharmacySM deliver it (with FREE standard shipping) by calling 866.890.1419 or by visiting express-scripts.com/90day. You can also fill your prescription at a Walgreens pharmacy.

7. What is the difference between long-term and short-term drugs?

Long-term drugs, also called maintenance medications, are those you take on an ongoing basis, such as to treat high blood pressure or high cholesterol. Short-term drugs include antibiotics and other medications that you take for short periods of time. Under your plan, you can fill short-term prescriptions at any participating retail pharmacy in your network.

8. I already use home delivery from the Express Scripts PharmacySM to get my long-term drugs. Do I need to change anything?

No. If you're using home delivery services from the Express Scripts PharmacySM for your long-term drugs, you may already be saving money under your plan. Congratulations! You don't need to do a thing.

¹ Duane ReadeTM pharmacies are owned by Walgreens and are included in the Smart90 Walgreens pharmacy network.

² The medications affected by this plan limit may change. To find out whether your medication's price is affected by these plan limits, visit [express-scripts.com](https://www.express-scripts.com) and select "Price a medication" after you log in. After selecting your medication, click "coverage notes" on the results page. If you are a first-time visitor to our website, please take a moment to register and have your member ID number handy. If the cost of a medication at a retail pharmacy is lower than your plan's retail copayment or coinsurance, you will not pay more than the retail pharmacy's cash price, regardless of the number of times you purchase the prescription. In some cases, this price may be less than either your standard retail or mail copayment or coinsurance.

Express Scripts manages your prescription benefit.
